

Radoje Jezdic

JavaScript Developer

Serbia, Bajina Basta • +381 65 541 8476 • hello@radoje.dev • github.com/jezda1337 • linkedin.com/in/radoje-jezdic

JavaScript developer with over four years of professional experience. Focused on solving challenging problems and continuously learning. Specializes in enhancing user experiences through efficient front-end development and ensuring system reliability. Enjoys collaborating with teams to address complex issues, streamline project processes, and contribute to meaningful outcomes in projects.

EXPERIENCE

Luccid.ai | 2025 - Present | Frontend Developer | Full-Time

- Developed and maintained the frontend for multiple projects as a solo JavaScript developer, ensuring high-quality user experiences and responsive designs.
- Designed and implemented two interactive dashboards: one for client use, providing insights and analytics, and another for internal operations, enhancing team productivity and collaboration.
- Created a customizable chatbot **SDK** that can be seamlessly embedded into client applications and websites, improving user engagement and support capabilities.
- Collaborated with cross-functional teams to gather requirements and deliver solutions that meet client needs and align with business objectives.
- Utilized modern JavaScript frameworks and libraries to enhance application performance and maintainability.
- Conducted user testing and gathered feedback to iterate on designs and improve functionality, resulting in increased user satisfaction.

Sylva.ac | 2024 - 2025 | Frontend Developer | Full-Time

- Resolved issues to improve system stability and performance.
- Contributed to maintaining and improving key projects, ensuring reliability and efficiency.
- Identified and addressed bottlenecks to optimize application functionality.

Single.Earth | 2021 - 2022 | Frontend Developer | Full-Time

- Developed and maintained client-side code to ensure functionality and improve user experience.
- Converted Figma designs into Angular interfaces with attention to detail.
- Optimized front-end performance and accessibility, following industry standards.
- Managed form creation for **KYC** projects, improving data collection and processing.
- Wrote 300+ unit tests with Jest to improve code reliability.
- Participated in Agile CI/CD processes to support sprints and deployments

Rutann.rs | 2021 - Present | Full Stack Developer | Part-Time

- Maintained and updated website content to ensure accuracy and relevance for a local delivery service.
- Managed packages and dependencies on Linux for optimized system operation.
- Conducted regular maintenance and performance tuning for server environments

SKILLS

Frontend: Core web technology, Angular, React, Vue, SASS, TailwindCSS

Backend: Go, Node

Database: PostgreSQL
